The Puzzle Voyage

The Puzzle Voyage is a scavenger or treasure hunt which will involve solving a series of challenges and puzzles, each of which will give information or clues about the next challenge. The challenges will test the contestant's grasp on basic programming skills involving logical and mathematical reasoning.

Theme :-

Galaxy hopping is no easy task. You're on your latest journey from the Milky Way Galaxy to the Andromeda Galaxy but as always something has gone haywire. You have three hours before you drift off into the abyss of space. Can you get your ship back on track?

Use your programming skills to solve a series of challenges and puzzles that will test your grasp on logical, analytical, and mathematical reasoning to fix your ship. Making progress on each challenge will give you vital clues and information about the next. Can you solve all the challenges before time runs out?

Rules :-

1. This is a team event. Each team will consist of one or two members.
2. The event will take place in single round.
3. It is a 3 hour's event. The winner will be decided on the basis of the numbers of questions they solve.
4. If any two teams solved all the questions within 3 hours then winner will be decided on the basis of time of completion.
5. The teams have to ensure the exact time recorded by volunteers after solving every question.
6. Any type of cheating practices can lead to disqualification.
7. In case if more than one team submits all the questions at the same time then the team which solved first question in lesser time will be the winner.
8. Any other criteria can be imposed to break the ties at the time of event.
9. Next question will be given only after solving the previous question.

NOTE :- The organizing committee reserves the right to make any last-minute change in the rules without any prior notice.
